COUNCIL NEWS IN BRIEF

Strategic Council of Council – April 25, 2017

Service Based Plans and Budgets

Council received the report for information and approved the information presented. In response to Council's five imperatives, the Administration is introducing some significant changes to the way in which The City will present its business plans and budgets for the next cycle (2019-2022). One of the fundamental changes is to present the plans and budgets by the services The City provides rather than by the way in which it is organized (department and business unit). Presenting business plans and budgets by service will equip Council with information on investment and value and provide citizens with more clarity on the value of City services received from tax dollars paid.

Council News in Brief is an informal summary of highlights from Calgary City Council's meetings. The City Clerk provides the complete and formal documentation of Council's meetings.
